

Coffee Creek Gold  
Project #: A362-4

Drilling Started : August 10, 2015  
Install Completed : August 12, 2015  
Drilling Diameter(s) : HQ (96 mm)  
Drilled depth : 268 mbgs

Drilling Method : Diamond  
Drilling Company : Cyr Drilling  
Supervised By : [redacted] r (SRK)  
Logged By : Kaminak  
Checked By : [redacted]

| Depth (m) | Elev. (masl) | LITHOLOGY  | Fracture = Fr<br>Fault = Fit | Airlift Yield (USGPM) | Installation depths along hole (m) |
|-----------|--------------|--|------------------------------|-----------------------|------------------------------------|
|           |              | Depth to Bedrock: <1.0 mbgs<br>Casing Depth: n/a mbgs  |                              |                       |                                    |
