

SUBSURFACE PROFILE				SAMPLE			Organic Vapour Rdg.					Well Completion Details	
Depth (m)	Symbol	Description	Elev. (m)	Number	Type	Recovery	PPM						
							100	300	500	700	900		
0		Ground Surface											
1		SAND Sand, medium grained, trace silt, trace gravel, dense to loose, grey to brown, moist		17-1	G								
2													
3													
4		Moderate hydrocarbon like odour		17-2	G				620				
5													
6													
7		SILT Silt, trace sand, stiff, grey, moist		17-3	G				230				
8				17-4	G								
9													
10		SAND Sand, medium grained, trace silt, loose, grey, wet											
11													
12		2.4 to 4.0m: Strong hydrocarbon like odour (100%LEL)		17-5	G								
13													
14		CLAY Clay, stiff, grey, wet		17-6	G								
15													
16													
17													
18													
19													
20													
21		End of Borehole											
22													
23													
24
